## About this Directory

This directory presents the results of research conducted in 2001 by the National Institute of Corrections (NIC) Information Center. The purpose of the project was to collect a range of jail-related state and federal contact information for quick access by NIC Jails Division staff.

The directory provides information about the following types of contacts:

- State jail inspectors;
- State jail association officers;
- State sheriffs' association officers;
- Staff of state associations of counties or county officials;
- Staff in state corrections academies that provide training to jail staff, as identified in a 1998 NIC Information Center survey;
- State risk management association staff;
- Academy RFCs from jail agencies; and
- Staff of federal offices with jail- or corrections-related functions.

Contact information is organized by state and by type of contact. For each entry, the data include the contact name, title, mailing address, phone and fax numbers, e-mail address, and URL for the organization, when known.

In addition to this print version, a searchable database of the information published in this directory is available on the NIC web site. See [www.nicic.org/textbase/contactsqbe.htm](http://www.nicic.org/textbase/contactsqbe.htm) to search the online database.
